PROFESSIONAL SUMMARY

Engineering Design graduate with a focus on Engineering, Design, and Innovation . Proven ability to bridge technical engineering thinking with human-centred design, including spatial optimization, custom product display systems, and 3D modelling. Experienced in the full design lifecycle—from conceptual sketching and 3D rendering to physical implementation and brand execution.

TECHNICAL SKILLS

- **Engineering Design:** SolidWorks (Competent), Blender (Advanced), Sketch Up, Adobe Photoshop, Illustrator.
- **Computational Design:** Python (Advanced), C# (Beginner), Next.js.
- **Design Methodologies:** Product Design Engineering, UX Design, Sustainable & Eco-friendly Solutions.

CORE PROJECTS & EXPERIENCE

Avoman | London, UK *Shop Manager / Design Coordinator* | 08/2024 – Present

- **Spatial Design & UX:** Collaborated with interior designers to optimize customer flow and store layout using engineering-driven spatial analysis.
- **Product Development:** Designed and implemented custom shelf systems and optimized product display units to improve retail ergonomics.
- **Design Execution:** Created technical designs for store signage and branded collateral, ensuring consistency between digital assets and physical products.
- **Operations:** Managed complex supplier logistics and inventory systems to ensure design specifications were met during branch expansion.

Freelance Graphic Designer | London, UK *Creative Lead* | 2023 – Present

- **Client-Centric Design:** Conceptualized and executed high-quality visual content, including posters and album covers, tailored to specific brand identities.
- **Project Management:** Managed multiple high-fidelity design projects simultaneously, delivering industry-standard outputs under strict deadlines.

Engineering Society (UoGES) | London, UK *Designer* | 2023 – 2025

- **Technical Communication:** Produced visual assets and organized networking events for a 161-member engineering organization.

EDUCATION

University of Greenwich | London, UK *Bachelor of Engineering (BEng) in Engineering, Design and Innovation* | Graduated 2025

- **Relevant Coursework:** Product Design Engineering, Mechanical Engineering, and Engineering Management.

Middle East Technical University (ODTU) | Ankara, Turkey *Bachelor of Engineering (BEng) in Mining Engineering* | Registration Frozen

INTERESTS

- Simple and funny projects with microcontroller using “IoT”.
- 3D Printing.
- Making websites using “next.js”.
